METHODOLOGY

The data in this report is gathered from 101 counties in the Missouri Balance of State (BoS) Continuum of Care (CoC). Social service agencies and community volunteers in each county complete a survey for each unsheltered homeless individual and family located in the CoC. Unsheltered homeless is defined by the U.S. Department of Housing and Urban Development (HUD) as “An individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning: Sleeping in a place not designed for or ordinarily used as a regular sleeping accommodation, including a car, park, abandoned building, bus or train station, airport camping ground or other place not meant for human habitation”.

In addition, sheltered data is gathered from social service agencies and organizations providing shelter (emergency shelter, safe haven, transitional housing and hotel/motel vouchers paid for by charitable organizations) to households within the BoS CoC. Together, the sheltered and unsheltered data make up the total number of homeless individuals and families in the BoS CoC.

When tabulating data for unsheltered homeless persons, age, gender and race percentages were calculated using the total of all unsheltered persons surveyed. The Veteran percentages were calculated using the total of all unsheltered adults surveyed. The disability, victims of domestic violence, chronically homeless and unaccompanied youth percentages were calculated using household information.

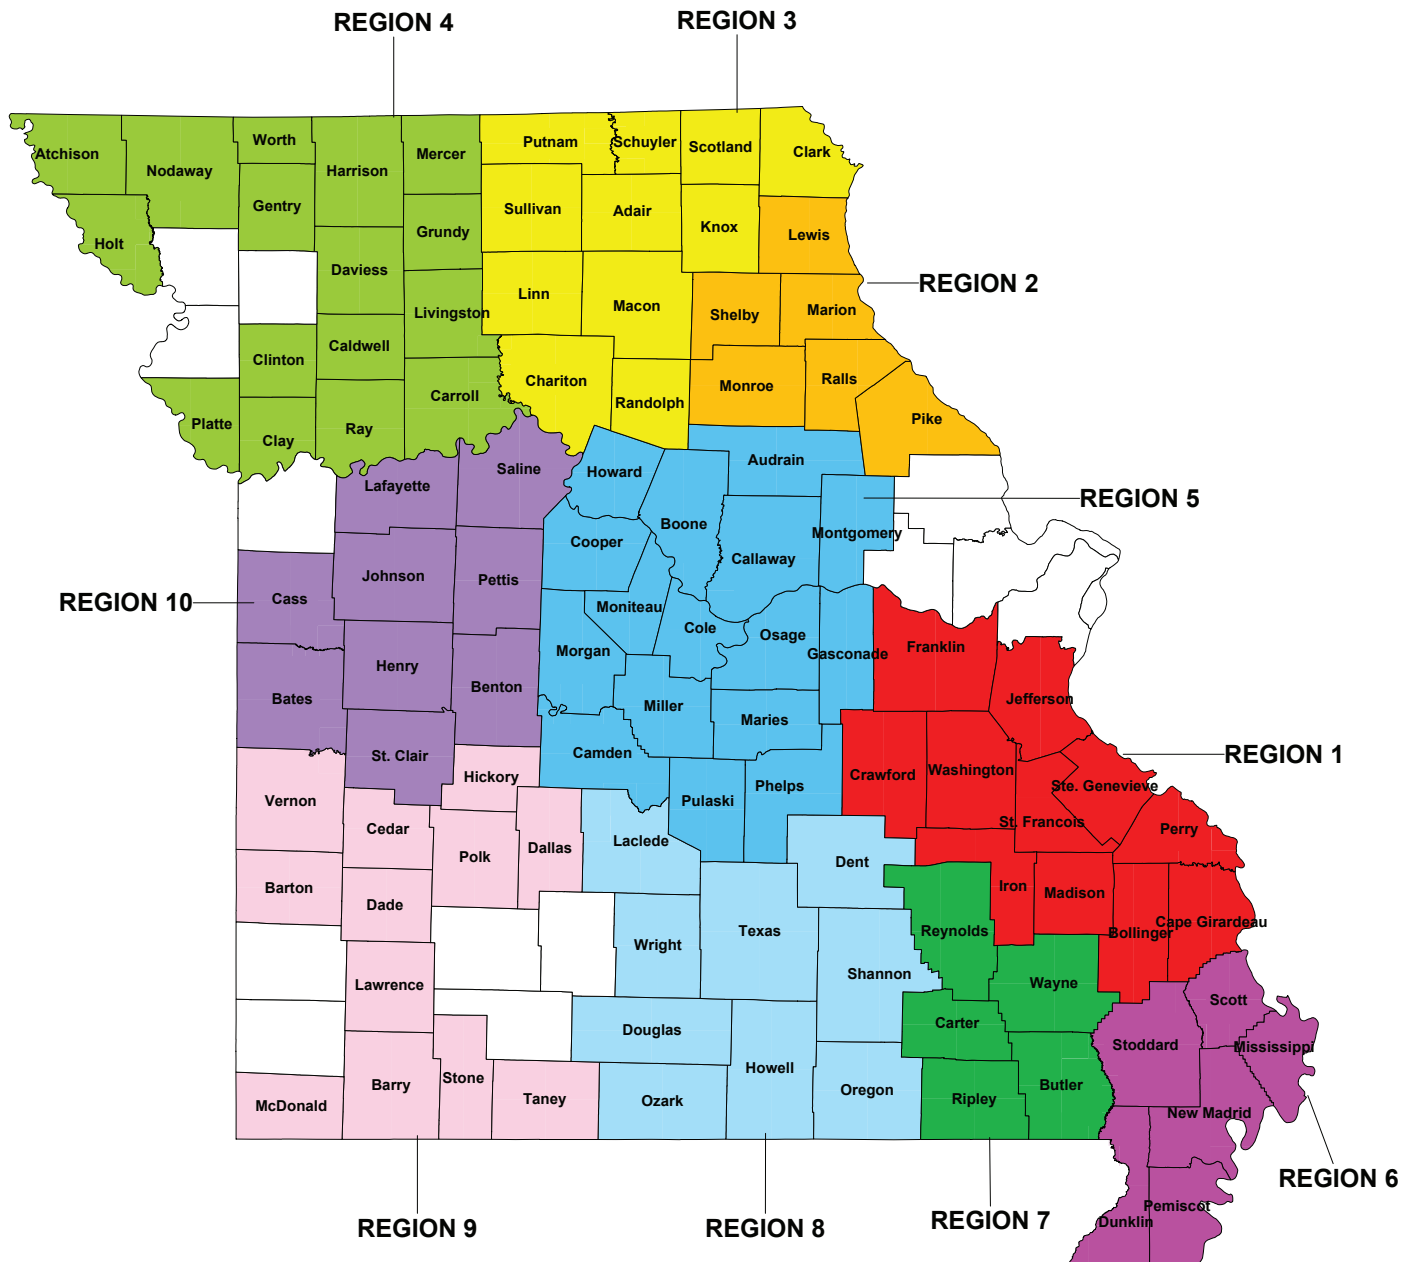

When tabulating data for sheltered homeless persons, age, gender and race percentages were calculated using the total of all sheltered persons. The disability, victims of domestic violence, chronically homeless and Veteran percentages were calculated using the total of all sheltered adults. The percentage of households with youth only (unaccompanied youth) was calculated using the total number of households sheltered.

The “unknown/no...” category was used to represent information unknown at time of entry into a shelter program or answers left blank or marked “no” on the survey administered to unsheltered homeless individuals and families.

Individuals surveyed may be represented in more than one disability category. Individuals may have more than one disability documented; therefore, the totals in the disability sections of the unsheltered or sheltered responses may not equal 100%.

For more information on the Point-in-Time Count, please visit the Governor’s Committee to End Homelessness (GCEH) website at www.mo-ich.org.

JANUARY 2012

DATA INFORMATION

The data in this report is gathered from 101 counties in the Missouri Balance of State (BoS) Continuum of Care (CoC). Social service agencies and community volunteers in each county complete a survey for each unsheltered homeless individual and family located in the CoC. Unsheltered homeless is defined by the U.S. Department of Housing and Urban Development (HUD) as “An individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning: Sleeping in a place not designed for or ordinarily used as a regular sleeping accommodation, including a car, park, abandoned building, bus or train station, airport camping ground or other place not meant for human habitation”.

In addition, sheltered data is gathered from social service agencies and organizations providing shelter (emergency shelter, safe haven, transitional housing and hotel/motel vouchers paid for by charitable organizations) to households within the BoS CoC. Together, the sheltered and unsheltered data make up the total number of homeless individuals and families in the BoS CoC.

When tabulating data for unsheltered homeless persons, age, gender and race percentages were calculated using the total of all unsheltered persons surveyed. The Veteran percentages were calculated using the total of all unsheltered adults surveyed. The disability, victims of domestic violence, chronically homeless and unaccompanied youth percentages were calculated using household information.

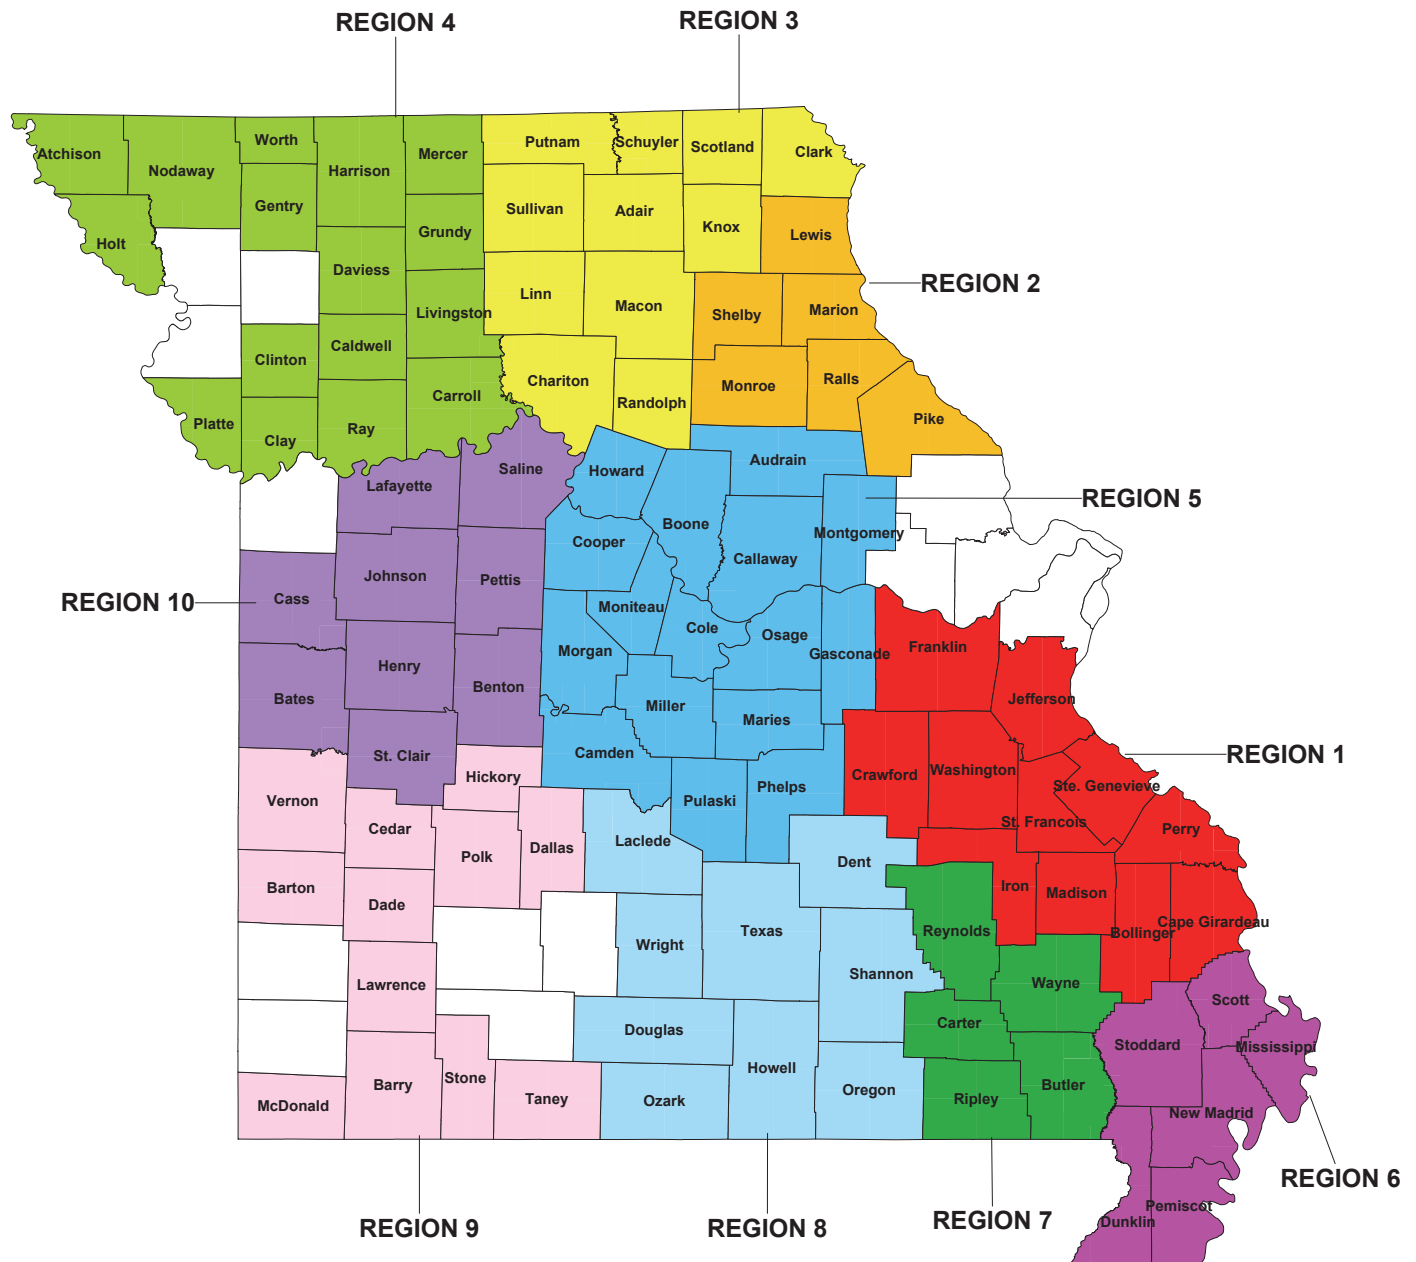

When tabulating data for sheltered homeless persons, age, gender and race percentages were calculated using the total of all sheltered persons. The disability, victims of domestic violence, chronically homeless and Veteran percentages were calculated using the total of all sheltered adults. The percentage of households with youth only (unaccompanied youth) was calculated using the total number of households sheltered.

The “unknown/no...” category was used to represent information unknown at time of entry into a shelter program or answers left blank or marked “no” on the survey administered to unsheltered homeless individuals and families .

Individuals surveyed may be represented in more than one disability category. Individuals may have more than one disability documented; therefore, the totals in the disability sections of the unsheltered or sheltered responses may not equal 100%.

For more information on the Point-in-Time Count, please visit the Governor’s Committee to End Homelessness (GCEH) website at www.mo-ich.org.
